RISE

WEEKLY BULLETIN
JUNE 19, 2020

Rapid Immunization Skill Enhancement (RISE) is a complementary capacity building package to strengthen the ongoing training of frontline health workers engaged in routine immunization under Universal Immunization Program of Government of India. This user-centric model optimally leverages the high technology (mobile phone, internet) penetration among the health workforce and effectively uses a digital training content supported by a face-to-face component of mentoring by supervisors. The digital part is primarily self-learning through an objective focused content based on adult learning principles that engages the learners through a variety of audio, animated visuals, reading and interactions like learning games and quizzes. It also has a provision of objectively assessing the learning and certification to make it more attractive to the learners. An open source Learning Management System (LMS) has been custom made to manage and deliver this digital content and provide a real-time monitoring dashboard which enables problem-solving and mentoring by supervisors. The dashboard is the basis of this weekly bulletin on RISE update.

WhatsApp groups created at each block in the districts play vital role in dispensing two-ways communication and facilitate RISE learning. The learners in the groups not only share their joy of completing the modules but also find it a platform to resolve their queries, troubleshooting and give suggestions as well!!

"All the modules have beautiful audio-visual training and that too in such a simple language with lots of example….Thank you RISE Team." Appreciation through WhatsApp *(ANM, Block Daund, District Pune, Maharashtra)*

"Kindly provide list of rest of employees" (who have not completed the course) … was asked by a Supervisor when STO shared the progress of Module 4. Monitoring & action through WhatsApp *(Supervisor, Zone 3, District Bhopal, Madhya Pradesh)*

"I did not receive certificate after completing Module 3" one ANM posted on the WhatsApp group. The STO explained thorough the same Whatsapp channel how she can view and download her certificate. Problem solving through WhatsApp *(LHV, Kendur PHC, Block Shirur, District Pune, Maharashtra)*

Stories from Field

Receiving Testimony for RISE App is an accolade in itself!!

Dr. Jitendra Kumar Panda,
Superintendent, CHC Jatani
Dist: Khordha, Odisha

I was interested in RISE from the day when it was launched in the state. I believe that in this digital era, this type of trainings through mobile phone will go a long way in capacity building of a large number of health workforce within short span of time. Some of the features of RISE which fascinated me are- ***learner dashboard, resources and e-certificate.***

All the vaccinators of my block are enthusiastic about the RISE training despite exhaustion from covid-19 surveillance workload.

We have created a WhatsApp group exclusively for RISE. Any issue faced by any staff is posted in this group and sorted out at the earliest. Staffs are informed well in advance about the launch of modules and they try to complete the module within few days of it getting available in the App. Even after completing a module, many of them keep on browsing the App for any update. Despite the fact that many times they face poor net connectivity, their performance has remained consistent.

My team of NHM managers are consistently encouraging and giving support for completion of modules. Thus, we have achieved 100 percent completion of all the modules within 3-4 days from the time a module gets available. I would like to thank district & state officials and state officer from JSI for guidance & prompt support in solving any issue.

Congratulations

Achieved 100 % Completion of 'Module 4' this week
