

RAPID IMMUNIZATION SKILL ENHANCEMENT

Innovate | Improve | Immunize

RISE is an innovative, learner-centric, e-learning platform (mobile/web app) designed to build the capacity of healthcare workers involved in routine immunization in India. Conceptualised and developed by JSI under the guidance of the Ministry of Health and Family Welfare (MoHFW), it leverages digital technology to complement traditional classroom training by offering a self-paced learning experience, thus revolutionizing how healthcare workers are trained. Designed to enhance knowledge and skills, it also keeps the health care workers updated on the evolving Universal Immunization Programme (UIP) guidelines. With its scalable design and user-friendly interface, the aim is to ultimately improve immunization outcomes across the country.

RISE MODULES

The RISE platform consists of 5 specialized modules, each developed based on the insights from a comprehensive Capacity Building Needs Assessment. This assessment meticulously analyzed the training needs of vaccinators at the field level, ensuring the content is tailored to meet their specific challenges and requirements of vaccinators.

IMMUNIZATION SCHEDULE

IMMUNIZATION

COMMUNICATION TO TACKLE
VACCINE HESITANCY

Each module includes a pre-test and post-test, where learners must achieve a minimum score of 70% to generate a certificate for that module. Upon completing all five modules, the learner will be awarded a Master Certificate.

A dedicated module on Zero dose is set to be introduced soon

PROGRESS AT A GLANCE

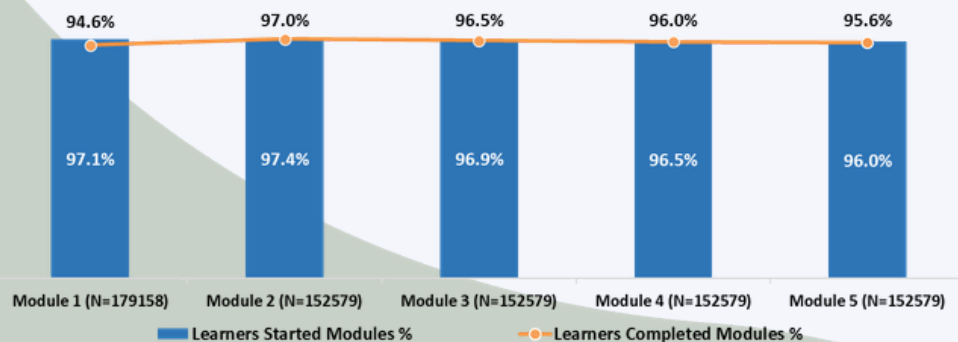

Among the **1,79,158** learners in 374 Go LIVE districts on the platform, **97.1%** of learners have **started the first module**, and **95.6%** have **completed all modules**.

Overall knowledge gain is calculated based on the difference between the pre and post-test scores of learners who have completed all five modules.

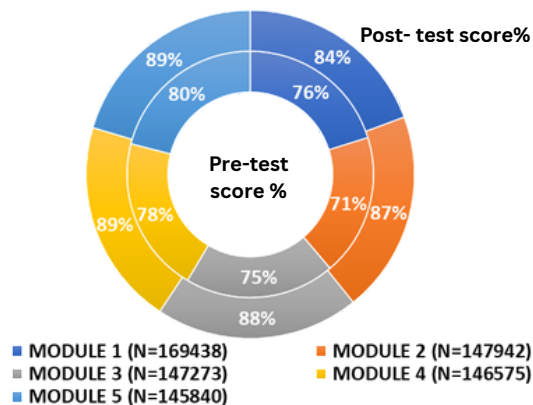

The maximum knowledge gain is observed in the second module, focused on injection safety and vaccine administration, with more than 50% of learners achieving a score improvement of more than 20 percentage points.

Learners can earn two types of certificates based on their performance:

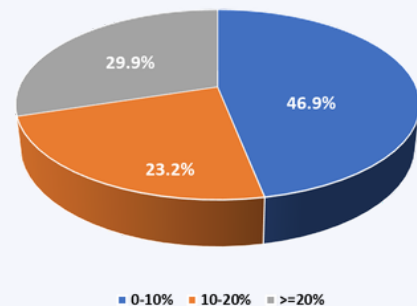

Module Wise Progress Status (till August 2026)

Key Activities and Progress across RISE Intervention States

BIHAR

Block-level trainings across all 538 blocks were completed by mid-August, enrolling and orienting 26,000+ vaccinators on RISE platform.

Bihar went live on 15 August 2026. As of August, the Module 1 start rate stands at 87.3% and Module 1 completion rate at 77.4% (n= 26579).

District and block level meetings were convened with DIO, MOIC, BCM, BM&E and DEO to discuss the progress of the Module 1 and track pending learners' progress.

MADHYA PRADESH

Follow-up were undertaken with pending learners to monitor progress and motivate timely completion of RISE modules.

State officials were provided with regular progress updates and shared pending line list with the officials for necessary action

This reporting month 21 learners completed M5. Module 1 start rate is 96.9% and module 5 completion rate is 88.5 % (n= 19363).

MEGHALAYA

Continuous follow-up with learners resulted in 100% Module 5 completion in the South Garo Hills district.

The Module 5 completion rate reached 100% in the State (n= 2407).

Key Activities and Progress across RISE Intervention States

TAMIL NADU

State was provided with regular progress update and detailed district wise pending line list was shared with the SEPIO for necessary action.

The state followed up with district official during RI meetings and shared the pending learners list for further action.

During August 8 pending learners completed module 5. Module 1 rate is 98% and 91.1% Module 5 completion rate (n=13532).

Success Story

Ms. Mimi Marak
ANM, Andharkona SC
South-West Garo Hills,
Meghalaya

During a home visit in Chokonggre village, South-West Garo Hills, Meghalaya, ANM Ms. Mimi Marak encountered hesitation towards vaccination. The caregiver was concerned that vaccination might make her child sick, while the grandparents were initially not comfortable giving consent. Drawing on the knowledge and counselling approaches gained through the RISE modules, Ms. Marak patiently addressed the family's concerns, explained the importance of timely vaccination and the protection vaccines provide against vaccine-preventable diseases. Through repeated counselling and effective interpersonal communication, she was able to build the family's confidence and encourage them to make an informed decision. The caregiver eventually agreed to vaccinate her child and the child has since received all vaccines as per the recommended immunization schedule.

"Ms. Marak's experience demonstrates how RISE learning can move beyond the digital learning equipping frontline health workers with the knowledge and confidence to address vaccine hesitancy and translate learning into action at the community level".
